Gary:

We are trying to finish up the closure activities for the waste units at CES. Questions have arisen about the four frac tanks. I understood that you sent them off to be cleaned or rinsed after you finished using them. Can you provide any paperwork or certificates about the cleaning or rinsing? Below is a picture of the four frac tanks. The tank numbers are 1001, 5180, 1002, and 1004. Thanks
Brenda
